

Color Reference Guide

PORON[®] Cushioning Materials are available in one or multiple standard color options as listed below. A wide range of developed colors may be available for many of the formulations. Developed colors outside of the standard offering are subject to meeting a minimum order quantity. Custom color matching is also available. Depending on formulation, some color variation may occur. It is recommended to obtain a physical sample of your PORON Material choice before order placement. To obtain further details regarding developed colors and guidelines, please contact your Rogers Customer Service Representative at 800.755.6766 or 860.928.8999.
